ACKNOWLEDGMENTS

The Ministry of Environment, Lands and Parks wishes to acknowledge three partners whose contributions were invaluable in the completion of the *Aboriginal Water Rights Report Series:*

The Ministry of Aboriginal Affairs, was a critical source of funding, support and direction for this project.

The U-Vic Geography Co-op Program, was instrumental in providing the staffing resources needed to undertake this challenging task. Through the services of June Whitmore and her office, the project benefited from the research, writing, editing and co-ordination of these outstanding students:

Jas Gill
Julie Steinhauer
Kelly Babcock
Daniella Mogus
Miranda Griffith
Christina Rocha
Rachel Abrams
Elizabeth Lee
Sara Cheevers

The services of Clover Point Cartographics Limited of Victoria, was responsible for the preparation of most of the map drawings, which form a valuable part of these documents.

In addition to these three key partners, I must acknowledge the valuable contributions of other Water Management staff, past and present, including Jack Farrell, Jim Mattison, Richard Penner, Diana Jolly, Greg Blaney, Gary Lucas and Kim Johnston.

The sheer numbers of First Nations groups' with histories of water rights made the completion of the Report Series seem, at times, prolonged. The determination, patience and vision of the partners was essential in the completion of the Series and is gratefully acknowledged.

Gary Robinson
Project Manager
Water Management Branch

TAB NO.

1. TABLE: Summary of Water Rights Record for the Oregon Jack Creek Band

2. RECORD OF MINUTES OF DECISIONS AND ORDER-IN-COUNCILS
   AGBC No. 590476

3. LICENCES AND PLATS
   Conditional Water Licences 7519, 7520, 7521, 7522, 7523 and 56612.
   Final Water Licences 9009, 9010 and 9011.

4. PERMIT OVER CROWN LANDS
   P.C.L. No. 9150

5. STREAM REGISTER REPORTS
   Barnard Creek, Barnes Creek, North Oregon Jack Creek, Oregon Jack Creek, Pasco Spring, and Thompson River.

6. WATER SURVEY OF CANADA RECORDS
   Barnard Creek, Barnes Creek, and Oregon Jack Creek.

FIRST NATIONS WATER RIGHTS REPORT

BAND: Oregon Jack Creek Band

ADDRESS: P.O. Box 940, Ashcroft, B.C., VOK 1A0

CHIEF: Chief Robert S. Pasco

PHONE: 453-9098 **FAX:** 453-9097

AFFILIATION: Nlaka'pamux Nation Tribal Council

LOCATION:

The Oregon Jack Creek Band occupies 822.8 hectares in reserve lands in the Ashcroft area. These reserves include:

Hay Meadow 1	Oregon Jack Creek 2	Oregon Jack Creek 3
Oregon Jack Creek 5	South Nepa 7	Upper Nepa 6

Of these reserve lands, water allocations have been granted on:

·Oregon Jack Creek 2, a 14.2-hectare reserve situated alongside Oregon Jack Creek, southwest of Ashcroft.
·Oregon Jack Creek 3, a 48.6-hectare reserve bordering Oregon Jack 5 to the south.
·Oregon Jack Creek 5, a 411.8-hectare reserve located on the west bank of the Thompson River.
·South Nepa 7, a 32.3-hectare reserve located south of Upper Nepa 7.
·Upper Nepa 6, a 303.8-hectare reserve situated to the east of the Thompson River and south of Ashcroft.

The most recent population figures from the Ministry of Finance show the Oregon Jack Creek Band having 11 persons living on-reserve and 38 persons living off-reserve for a total of 54 registered persons.

The six reserves of the Oregon Jack Creek Band are situated within the Interior Plateau and are characterized as the Bunchgrass Biogeoclimatic Zone. These reserves lie at elevations ranging from 1000 to 3000 feet above mean sea level, and experience climate ranging from an average daily temperature of -10 degrees centigrade in January, to 20 degrees centigrade in July. The average annual rainfall in this area is less than 30 centimetres.

Water courses of significance include:

·Barnard Creek, which flows west through Upper Nepa 6 and drains into the Thompson River.

·Barnes Creek, which is located east of the Municipality of Ashcroft and drains into Barnes Lake.

·North Oregon Jack Creek, which is a tributary of Oregon Jack Creek.

·Oregon Jack Creek, which flows east alongside Oregon Jack Creek 3 and drains into the Thompson River.

·Pasco Spring which is located on the northwestern border of Oregon Jack Creek 5.

·Thompson River which is a tributary of the Fraser River and flows between Oregon Jack Creek Reserves.

WATER ALLOCATIONS:

There are no records of any allocations of water made by an Order in Council of Lieutenant Governor in Council.

The water rights of the Oregon Jack Creek Band have been recorded or affected by four actions of government over the years:

1) Allotments by Indian Reserve Commissioners.

   Following confederation, the Province and the Dominion established an Indian Reserve Commission to reserve lands for the Indians without their agreement and for the transfer of those lands to the Dominion. In setting apart lands for reserves, the Reserve Commissioners made it their practice to allot water with the lands. It is understood that this practice was unique among Indian Reserves in Canada and the authority of these Commissioners to allot water rights has always been disputed by the Province.

2) Determinations of the Board of Investigation under the *Water Act, 1914* of claims of the Department of Indian Affairs, and subsequent issue of water licences.

3) Granting of water licences from Federal Government application for licences for the use of water on reserves.

4) Actions to amend, cancel or record as abandoned rights under licence pursuant to provisions in the *Water Act*.

HISTORY, CURRENT STATUS AND NOTES:

The history of water rights, the current status of rights, and notes for the Oregon Jack Creek Band with respect to Barnard Creek, Barnes Creek, Oregon Jack Creek, Pasco Spring and the Thompson River are as follows:

Barnard Creek & Barnes Creek:

History:

May 19, 1886 The Minute of Decision of the Indian Reserve Commission allocated the following for the Oregon Jack Creek Band for use on Upper Nepa 6:

"The surplus water of Nelson, or Barnard Creek is hereby reserved for the use of the Indians on these allotments."

Aug 4, 1922 At a final hearing before the Board of Investigation, acting pursuant to the *Water Act* of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Barnard Creek, for use on Upper Nepa Reserve No. 6. The Order of the Board, numbered 7979, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Barnard Creek,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 168 acre feet per year for irrigation of 56 acres of Upper Nepa Reserve No. 6, provided that 500 gallons per day, throughout the year, could also be used for domestic purpose.

Aug 4, 1922 At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Barnard Creek and an unnamed creek, for use on South Nepa Reserve No. 7. The Order of the Board, numbered 7982, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Barnard Creek and an unnamed creek,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 130.5 acre feet per year for irrigation of 43.5 acres of South Nepa Reserve No. 7, provided that 500 gallons per day, throughout the year, could also be used for domestic purpose.

Aug 4, 1922 At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Barnes Creek for use on Upper Nepa Reserve No. 6. The Order of the Board, numbered 7981, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Barnes Creek,
(ii) take precedence from May 8, 1886,
(iii) authorize diversion of a maximum of 135 acre feet per year for irrigation of 45 acres of Upper Nepa Reserve No. 6, provided that 500 gallons per day, throughout the year, could also be used for domestic purpose.

Apr 24, 1924 The Comptroller of Water Rights issued Conditional Water Licence 7522, which embodied the terms and conditions set out in Board Order 7979.

Apr 24, 1924 The Comptroller of Water Rights issued Conditional Water Licence 7523, which embodied the terms and conditions set out in Board Order 7982.

Apr 24, 1924 The Comptroller of Water Rights issued Conditional Water Licence 7521, which embodied the terms and conditions set out in Board Order 7981.

Mar 2, 1933 Having given notice to the lessee of the land appurtenant to Conditional Water Licence 7523, the Board of Investigation under 'Water Act' cancelled the Licence for failure to make beneficial use of the water authorized to be used under the said licence.

Further information on Conditional Water Licence 7523 cannot be located because the file was destroyed in 1945.

Nov 21, 1936 A letter from the District Engineer stated that Final Water Licences 4807 and 4808, appurtenant to Lot 95 (Thompson Ranch) have prior rights to Conditional Licences 7522 and 7521. The works associated with Conditional Water Licence 7521 appeared to be those of the Thompson Ranch making the works joint between the Ranch and the Reserve. The issuance of these two licences by the Board was supported by an agreement between the Ranch and the Reserve for exchange and use of land. There is no information available as to whether the Indian Department implemented this agreement or whether the agreement is binding. To clarify the issue of water use, a proposal was submitted by the District Engineer to; abandon Final Water Licence 4808, making Conditional Water Licence 7522 the prior right on Barnard Creek; and to abandon Conditional Water Licence 7521 and all claims to the use of the Thompson Ranch ditch.

Nov 25, 1936 A letter from Comptroller of Water Rights stated that this exchange of lands would be possible, however:

"I consider Conditional Licence 7521, Ashcroft (Barnes) Creek should be retained for the 7.5 acres of the Indian Reserve, and upon that portion becoming privately held, a Final Licence issued to the successor of the title."

Jan 27, 1937 A letter from Comptroller of Water Right stated that:

"the proposed interchange of land would involve survey and legal work ..., also certain expense which they are loath to incur. They consider the situation could be left as it is and the mutual exchange of land left to the parties concerned as in the past."

Further correspondence from the Comptroller of Water Rights dated March 30, 1939 stated that:

"It has been the practice for many years past to use each others land, but the Final Licences when issued cannot recognize such mutual interchange."

Apr 4, 1939 An agreement was reached between Stephenson (owner of the Thompson Ranch) and the Reserve which would require: a Final Licence to be issued in substitution of Conditional Water Licence 7521 for the 7.5 acres, and Final Water Licences 4807 and 4808 to be recalled with a lesser amount of appurtenant land allocated on Conditional Water Licences 7522 and 7521. By this arrangement, an interchange of land within Upper Nepa 6 and an adjustment regarding use of water on the parcels from Barnes and Barnard Creeks would be made.

Jan 16, 1985 In the matter of Conditional Water Licences 7521 and 7522, a memo from the Water Management Branch stated:

"Final Licence surveys were conducted on the above licences back in 1936 however new licences were never issued for the reduced quantities recommended."

There is no further information on file to indicate whether these licences are still being utilized by the Oregon Jack Creek Band or if the ditch on Thompson Ranch has been abandoned by licencee under Final Licence 4807.

Nov 16, 1985 A memo stated that an amendment to clause (g) of Conditional Water Licences 7521 and 7522, and Permits Over Crown Land were required for Conditional Water Licences 7521 and 7522.

There is no information on file to indicate that amendments were made or that Permits Over Crown Land were issued for Conditional Water Licences 7521 and 7522.

Current Status:

Barnard Creek:

There are currently 6 active licences on Barnard Creek, one of which is held by the Oregon Jack Creek Band. Of these licences:

- 5 authorize the use of 3 to 168 acre-feet of water per year for irrigation purpose.
- 2 authorize the use of 500 gallons per day for domestic purpose.
- 1 authorizes the use of 7,500 gallons per day for waterworks purpose.
- 1 authorizes the use of 20,000 gallons per day for enterprise purpose.

Note: Some licenses authorize the use or diversion of water for more than one purpose.

The right held by the Oregon Jack Creek Band under Conditional Water Licence 7522 is first in priority.

Water licencing records show Barnard Creek as a fully recorded source.

Water Survey of Canada operated station 08LF067 on Barnard Creek for the month of August in 1965. There are no records of minimum and maximum daily discharge or mean monthly discharges.

Barnes Creek:

There are currently 27 active licences on Barnes Creek, one of which is held by the Oregon Jack Creek Band. Of these licences:

- 14 authorize the use of 32.5 to 643 acre-feet of water per year for storage non-power purpose.
- 12 authorize the use of 3 to 643 acre-feet of water per year for irrigation purpose.
- 5 authorize the use of 500 gallons of water per day for domestic purpose

Note: Some licenses authorize the use or diversion of water for more than one purpose.

The right held by the Oregon Jack Creek Band under Conditional Water Licence 7521 is seventh in priority.

Water licencing records show Barnes Creek as a fully recorded source.

Water Survey of Canada operated station 08LF001 on Barnes Creek from 1912 to 1927 throughout the months of April to September. During this period, the station recorded a minimum daily discharge of 0 m^3/sec (0 cubic feet/sec) on August 24, 1923, and a maximum daily discharge of 3.82 m^3/sec (25.47 cubic feet/sec) on May 20, 1915. Mean monthly discharges reach a low of .112 m^3/sec in October, and rise to a high of .574 m^3/sec in May.

Notes:

1. The Oregon Jack Creek Band's prior right to water allotted by the Indian Reserve Commission has not been formally recognized by the Province.
2. Barnard Creek and Barnes Creek are noted as fully recorded.
3. The water rights held by the Oregon Jack Creek Band under Conditional Water Licence 7523 were cancelled in 1933.

Oregon Jack Creek & Pasco Spring:

History:

Jul 18, 1921

At a final hearing before the Board of Investigation, acting pursuant to the *Water Act* of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Oregon Jack Creek, for use on Oregon Jack Creek Reserve No. 2. The Order of the Board, numbered 4564, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Oregon Jack Creek (North Fork),
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 78 acre feet per year for irrigation of 26 acres of Oregon Jack Creek Reserve No. 2, provided that 500 gallons per day, throughout the year, could also be used for domestic purpose.

Jul 18, 1921

At a final hearing before the Board of Investigation, acting pursuant to the Water Act of 1914, the Board determined that on the 26th day of September, 1888, there was filed in the office of the Dominion Lands Agent at New Westminster, B.C., a bona fide application for a record of water from Oregon Jack Creek, for use on Oregon Jack Creek Reserve No. 3 & 5 and a spring (Pasco Spring) on Oregon Jack Creek 5. The Order of the Board, numbered 4563, set out that a conditional licence should be issued which would:

(i) provide for the diversion of water from Oregon Jack Creek and Pasco Spring,
(ii) take precedence from September 26, 1888,
(iii) authorize diversion of a maximum of 351 acre feet per year for irrigation of 117 acres of Oregon Jack Creek Reserve No. 3 & 5, provided that 1,000 gallons per day, throughout the year, could also be used for domestic purpose.

Apr 24, 1924

The Comptroller of Water Rights issued Conditional Water Licence 7519, which embodied the terms and conditions set out in Board Order 4564.

Apr 24, 1924 The Comptroller of Water Rights issued Conditional Water Licence 7520, which embodied the terms and conditions set out in Board Order 4563.

Nov 20, 1934 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 9009 (in partial substitution of Conditional Water Licence 7520) to the Superintendent General of Indian Affairs on behalf of the Oregon Jack Creek Band. The licence was given a precedence date of September 26, 1888 and authorizes the diversion of 135 acre feet per year (from April 1 to September 30) from Oregon Jack Creek, for irrigation purpose on 45 acres of Oregon Jack Creek Reserve No. 3. Of this amount, 1,000 gallons per day, year-round, may also be for domestic use.

Nov 20, 1934 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 9010 (in partial substitution of Conditional Water Licence 7520) to the Superintendent General of Indian Affairs on behalf of the Oregon Jack Creek Band. The licence was given a precedence date of September 26, 1888 and authorizes diversion of 1,000 gallons of water per day, throughout the year, from Pasco Spring for domestic (stock watering) purpose. The land to which this licence is appurtenant is Oregon Jack Creek Reserve No. 5.

Nov 20, 1934 Based on the extent to which the rights granted under the former licence were being exercised at the time, the Comptroller of Water Rights issued Final Water Licence 9011 (in substitution of Conditional Water Licence 7519) to the Superintendent General of Indian Affairs on behalf of the Oregon Jack Creek Band. The licence was given a precedence date of September 26, 1888 and authorizes diversion of 50 acre feet per year (from April 1 to September 30) from Oregon Jack Creek, for irrigation purpose on 20 acres of Oregon Jack Creek Reserve No. 2. Of this amount, 500 gallons per day, year-round, may also be for domestic use.

Jul 14, 1958 In the matter of Final Water Licence 9010, a letter from the District Engineer confirmed that a channel of Pasco Spring had been blocked by the construction of the Trans Canada Highway and that the stream had been diverted along the highway to Oregon Jack Creek. A culvert was constructed to drain the area east of the highway and a dam was constructed to divert the flow of water through the culvert to make water available for the reserve. Because the diversion of the stream appeared to be of a permanent nature, he suggested that the Band apply for an amendment of the licence to authorize the diversion dam and culvert as works under the licence. This would give them authority to divert the water to make it accessible to the reserve.

Oct 23, 1973 In accordance with an Application for Change of Works made on behalf of the Oregon Jack Creek Band, the Comptroller of Water Rights issued an Order embodying the change of works for Final Water Licence 9011.

The source of water supply authorized under Final Water Licence 9011 was also renamed North Oregon Jack Creek.

Oct 23, 1973 In connection with Final Water Licence 9011, Permit Over Crown Lands 9150 was granted to the Oregon Jack Creek Band. This permit authorized occupation of Crown Land for the construction and maintenance of works.

Jul 7, 1982 In the matter of Final Water Licence 9010, Regional Water Resource Manager stated that the main concern of Chief Pasco of the Oregon Jack Reserve No. 5 was that the diversion of water from Pasco Springs was entering District Lot 788. Chief Pasco suggested that in order to divert Pasco Spring flow back into the original water course through Oregon Jack 5, it would be necessary to lower the ditch on the west side of the highway and slope it to drain south. In addition, he suggested lowering the ditch further to extend the diversion to the northerly boundary of Oregon Jack Creek 5. This would make it difficult for water to be diverted to Lots 778 and 779.

Aug 4, 1982 Further correspondence from the Regional Water Resource Manager stated:

"Chief Bob Pasco's licence, FL 9010, is only 1,000 gallons per day. We can see no reason why the existing design would not prove adequate to supply this amount of water. In addition, we would not be in favour of the ditch being lowered if it would adversely affect CL 30742 serving Lots 788 and 789."

There is no further information on file to indicate whether this issue was resolved.

Current Status:

Oregon Jack Creek:

There are currently 18 active licences on Oregon Jack Creek, two of which are held by the Oregon Jack Creek Band. Of these licences:

- 13 authorize the use of 41 to 703 acre-feet of water per year for irrigation purpose.
- 5 authorize the use of 500 to 3,000 gallons per day for domestic purpose.
- 4 authorize the use of 150 to 240 acre-feet of water per year for storage non-power purpose.

Note: Some licenses authorize the use or diversion of water for more than one purpose.

The rights held by the Oregon Jack Creek Band under Conditional Water Licences 9009 and 56612 are ninth and eighteenth in priority.

Conditional Water Licence 56612 held by the Oregon Jack Creek Band for Thompson River includes a point of rediversion of water from Oregon Jack Creek.

Water Survey of Canada operated station 08LF067 on Barnard Creek for the month of August in 1965. There are no records of minimum and maximum daily discharge or mean monthly discharges.

North Oregon Jack Creek:

Final Water Licence 9011 is the only active licence on North Oregon Jack Creek. It is for the use and benefit of the Oregon Jack Creek Band.

Water Survey of Canada has no records of streamflow on North Oregon Jack Creek and there is no other current information on water availability.

Pasco Spring:

Final Water Licence 9010 is the only active licence on Pasco Spring. It is for the use and benefit of the Oregon Jack Creek Band.

Water Survey of Canada has no records of streamflow on Pasco Spring and there is no other current information on water availability.

Note: The issuance of Final Water Licences 9011, 9009 and 9010 (which substituted Conditional Water Licences 7519 and 7520) resulted in the reduction of licensed water rights for the Oregon Jack Creek Band.

Thompson River:

History:

Apr 1, 1982 In accordance with an application made by the Oregon Jack Creek Band, the Comptroller of Water Rights issued Conditional Water Licence 56612. This licence has a precedence date of February 20, 1980 and authorizes diversion of 105 acre feet per year (from April 1 to September 30) from Thompson River for irrigation purpose. The land to which this licence is appurtenant is Oregon Jack Creek Reserve No. 3, of which 35 acres may be irrigated.

Current Status:

There are currently sixty-two active licences on Thompson River, one of which is held by the Oregon Jack Creek Band. Of the licences:

- 33 authorize the use of water for irrigation purpose, ranging from 6 to 2,850 acre feet of water per year.

- 9 authorize the use of water for waterworks local authorities purpose, ranging from 36,500,000 to 912, 500,000 gallons per year.
- 8 authorize the use of water for domestic purpose, ranging from 500 to 3,000 gallons of water per day, year round.
- 3 authorize the use of water for enterprise purpose, ranging from 1,500 to 15,000 gallons of water per day.
- 3 authorize the use of water for irrigation local authorities purpose, for a total of 3,278 acre feet per annum.
- 3 authorize the use of water for waterworks (other) purpose, ranging from 3,000 to 12,000 gallons of water per day.
- 2 authorize the use of water for cooling purpose, for a total of 3,001,500 gallons of water per day.
- 2 authorize the use of water for mining-processing ore purpose, ranging from 3,960,000 to 3,400,000 gallons of water per day.
- 2 authorize the use of water for fire protection purpose, for 2.67 cubic feet per second and for 12,000 gallons per day.
- 2 authorize the use of water for processing purpose, ranging from 20,000 to 592,299.40 gallons of water per day.
- 1 authorizes the use of water for pulpmills purpose, for 90 cubic feet per second.
- 1 authorizes the use of 15 acre-feet of water per year for watering purpose.
- 1 authorizes the use of 1,100 acre-feet of water per year for storage non-power purpose.

Note: Some licenses authorize the use or diversion of water for more than one purpose.

The Oregon Jack Creek Band holds Conditional Water Licence 56612, which is fifty-third in priority on Thompson River.

Conditional Water Licence 56612 held by the Oregon Jack Creek Band for Thompson River includes a point of rediversion of water from Oregon Jack Creek.

Water Survey of Canada has no records of streamflow on the Thompson River near the Oregon Jack Creek Reserves and there is no other current information on water availability.

Note: There are currently four outstanding applications on Thompson River, none of which were filed by the Oregon Jack Creek Band.

OTHER INFORMATION:

Additional Water Records:

The *Schedule of Indian Reserves in the Dominion, 1913,* is a document published by the federal government, recording each Band's water allocations up to 1913. We believe these records are a compilation of Minute of Decisions, Order-in-Councils, and perhaps other documents. However, as original copies of these documents are unavailable, the dates and information cannot be verified.

Allocations in the *Schedule of Indian Reserves in the Dominion* for the benefit of the Oregon Jack Creek Band , which are inconsistent with our findings, are:

Reserve	Water Allocation
Oregon Jack Creek 2	*"100 inches of water recorded from Oregon Jack Creek."* Board Order 4564 (Conditional Water Licence 7519) stated that a bona fide application for a record of water from Oregon Jack Creek (North Fork) has been used for beneficial purposes. The Oregon Jack Creek Band was granted 78 acre feet of water a year. The quantity authorized under the Board Order is less than the amount stated in the Dominion's schedule (100 inches or 666.7 acre feet). The reference to an inch of water is understood to be a "miner's inch" of water. The Water Act of 1914 defined a miner's inch as being equal to a flow of .028 cubic feet per second. This rate of flow over a 120 day irrigation season would be 6.664 acre feet for each miner's inch
Oregon Jack Creek 3	*"100 inches of water recorded from Oregon Jack Creek."* Board Order 4563 (Conditional Water Licence 7520) stated that a bona fide application for a record of water from Oregon Jack Creek and a spring (Pasco Spring) has been used for beneficial purposes. The Oregon Jack Creek Band was granted 351 acre feet of water a year. The quantity authorized under the Board Order is less than the amount stated in the Dominion's schedule (100 inches or 666.7 acre feet).

Groundwater Records:

Review of records of the Groundwater Section found no evidence of wells located on Oregon Jack Creek Reserves. However, the provision of this groundwater information is voluntary, and therefore, cannot be assumed to be complete.

Alternate Water Sources:

The proximity of the Oregon Jack Creek Reserves to the Thompson River presents the potential for water supply to these reserves via this river system.

At this time the potential for water supply from a municipality is limited as there are no municipal water systems in the proximity of the Oregon Jack Creek Reserves.

Fisheries:

The Minute of Decision of the Indian Reserve Commission described an area a quarter mile above the mouth of Oregon Jack Creek, downstream a distance of two miles. The Schedule of Indian Reserves states that:

"The Oregon Jack Creek Indians have the privilege of salmon fishing on both banks of the Thompson River..."

DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Oregon Jack Creek (N-Fork)

in the neighbourhood of Ashcroft, in the

Ashcroft Water District.

NOW, on the 18th day of July, 1921, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 16 & 17-3-1) that on the 26th day of September 1888 there was filed in the office of the Dominion Lands Agent at New Westminster, B.C. a bona fide application for a record of water from Oregon Jack Creek (North Fork) for use on Upper Oregon Jack Creek Indian Reserve (No.2 Oregon Jack Creek) and that water from the said creek has been used for beneficial purposes on the said Indian Reserve.

Form 386, W.R.B.—2,000-12-20.

Order No. 4564

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a*.) The sources of the water supply is Oregon Jack Creek (North Fork)

(*b*.) The points of diversion from the said sources ~~are~~ is located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c*.) The date ~~from~~ which the said licence shall take precedence is

26th September, 1888

(*d*.) The purpose for which the water is to be used is irrigation.

(*e*.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 78 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 3 acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f*.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g*.) The water may be used on Upper Oregon Jack Creek Indian Reserve (No.2 Oregon Jack Creek) of which 26 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h*.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i*.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j*.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930

(*k*.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Copy for Comptroller

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 500 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

PROVINCE OF BRITISH COLUMBIA. WATER RIGHTS BRANCH. DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Oregon Jack Creek and a spring on Oregon Jack Creek Indian Reserve No.5

in the neighbourhood of Ashcroft, in the

Ashcroft Water District.

NOW, on the 18th day of July, 1921, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 18,19,20,-3-1) that on the 26th day of September 1888 there was filed in the office of the Dominion Lands Agent at New Westminster, B.C. a bona fide applicatio: for a record of water from Oregon Jack Creek and a spring, tributaries of Thompson River, for use on the Lower Oregon Jack Creek Indian Reserve (Nos.3 & 5 Oregon Jack Creek) and that water from said creek and spring has been used for beneficial purposes on the said Indian Reserve.

Form 586, W.R.B.—2,000-12-20. Order No. 4563.

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The sources of the water supply are Oregon Jack Creek and a spring tributaries of Thompson River.

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date from which the said licence shall take precedence is 26th September, 1888

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 351 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 3 - acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on Lower Oregon Jack Creek Indian Reserve (Nos. 3 & 5 Oregon Jack Creek) of which 117 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 1000 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act..

WATER RIGHTS BRANCH.

DEPARTMENT OF LANDS.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters

of Ashcroft (Barnes) Creek a tributary of Thompson River.

in the neighbourhood of Ashcroft, in the

Ashcroft Water District.

NOW, on the 4th day of August, 1922, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 1-4-1) that a valid record affecting the said claim was made under authority of an Act passed prior to the 12th day of March 1909, and that under the said record the Oregon Jack Creek tribe or band of indians was granted a right to take and use water from Ashcroft (Barnes) Creek for irrigation and domestic purposes on the Upper Nepa Indian Reserve being Reserve No.6 of the said tribe or band.

Form 550, W.R.B.—2,000-12-20.

Order No. 7981.

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The sources of the water supply is Ashcroft (Barnes) Creek a tributary of Thompson River

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date from which the said licence shall take precedence is 8th May 1886

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 135 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 3 acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on Upper Nepa Indian Reserve (No.6 Oregon Jack Creek) of which 45 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Copy ...

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 500 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters of Barnard Creek a tributary of Thompson River in the neighbourhood of Ashcroft, in the Ashcroft Water District.

NOW, on the 4th day of August, 1922, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 2,3,4,5-4-1) that on the 26th day of September 1888 there was filed in the office of the Dominion Lands Agent at New Westminster, B.C. a bona fide application for a record of water from Barnard Creek a tributary of Thompson River for use on the Upper Nepa Indian Reserve (No. 6 Upper Nepa Band) and that water from the said creek has been used for beneficial purposes on the said Nepa Reserve.

Form 585, W.R.B. 2,000-12-22.

Order No. 7979...

Copy for Comptroller

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(*a.*) The sources of the water supply is Barnard Creek a tributary of Thompson River

(*b.*) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(*c.*) The date ~~for~~ from which the said licence shall take precedence is 26th September 1888

(*d.*) The purpose for which the water is to be used is irrigation.

(*e.*) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (*g*) of this clause, until lawfully altered, is 168 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 3 acre-feet: Provided that where sources of supply other than those named in subclause (*a*) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (*g*) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(*f.*) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(*g.*) The water may be used on the Upper Nepa Indian Reserve (No.6 Oregon Jack Creek) of which 56 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(*h.*) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(*i.*) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(*j.*) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930

(*k.*) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Copy for Comptroller

(*l.*) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 500 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purposes, such quantity of water (not exceeding [redacted] acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of [redacted] and it may be stored (accumulated) in a reservoir at [redacted] between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (*d*), (*e*), and (*f*) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (*e*) hereof.

(*m.*) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(*n.*) The licence shall not in any way be deemed to be a final licence for the use of water but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

DETERMINATION AND ORDER.

(FOR A CONDITIONAL WATER LICENCE FOR IRRIGATION PURPOSES.)

BY THE BOARD OF INVESTIGATION
UNDER THE "WATER ACT, 1914."

In the Matter of the Claims of the Department of Indian Affairs to Rights to the Use of the Waters of Barnard Creek & an un-named creek, tributaries of Thompson R. in the neighbourhood of Ashcroft, in the Ashcroft Water District.

NOW, on the 4th day of August, 1922, the above-entitled matter coming on regularly for final hearing before the Board of Investigation; due notice having been given of the time and place of hearing; all and every the steps required under the Act to be taken by the Board before a determination of the said rights and claims should be made having been taken; all evidence, testimony, and proofs filed with the Board or presented in the above-entitled matter having been duly considered; a quorum of the Board being present at the hearing; and the Board being now fully advised in the premises, determines with respect to the said claims (which are on file and designated as Indian File No. 6 & 7-4-1) that on the 26th day of September 1888 there was filed in the office of the Dominion Lands Agent at New Westminster, B.C. a bona fide application for a record of water from Barnard Creek and an un-named creek, tributaries of Thompson River, for use on South Nepa Indian Reserve (No.7 Oregon Jack Creek) and that water from the said creeks has been used for beheficial purposes on the said Indian Reserve.

2. The claims of the Department of Indian affairs with respect to the said waters are allowed by the Board to the extent hereinafter specified, and the Comptroller of Water Rights is hereby directed to issue a conditional licence in respect thereof embodying the following terms and conditions:—

(a.) The sources of the water supply are Barnard Creek and an un-named creek, tributaries of Thompson River

(b.) The points of diversion from the said sources are located as shown in the exhibit marked "A" hereto attached, which is incorporated herewith and made a part hereof, the original of which exhibit is on file in the office of the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

(c.) The date from which the said licence shall take precedence is 26th September, 1888

(d.) The purpose for which the water is to be used is irrigation.

(e.) The maximum quantity of water per annum which may be used when irrigation is extended to all the lands mentioned in subclause (g) of this clause, until lawfully altered, is 130.5 acre-feet, and the maximum quantity of water which may be used per annum on each acre actually irrigated until lawfully altered is 3 acre-feet: Provided that where sources of supply other than those named in subclause (a) hereof are drawn upon for the irrigation of a part or all of the same lands as are described in subclause (g) hereof, the maximum quantity of water which may be used under the licence hereby directed to be issued shall be reduced by the quantity which the licensee may be entitled to use from said other sources of supply: Provided further that when the Engineer of the Water District has accumulated the requisite hydrographic data for determining to the satisfaction of the Comptroller the *pro rata* part of the said total quantity to be apportioned to the licence hereby directed to be issued, the Comptroller shall require the surrender of the licence, and shall amend the same by stating the particular quantity to which the licensee is entitled from the particular sources named therein.

(f.) The period of the year during which the water may be used is between the first day of April and the thirtieth day of September.

(g.) The water may be used on South Nepa Indian Reserve (No.7 Oregon Jack Creek) of which 43.5 acres are said to be irrigable. The extent and location of the said irrigable lands are more particularly shown in the said Exhibit "A."

(h.) The works which are required to be constructed before the issue of a final licence are the clearing, stumping, and levelling of the irrigable lands on the said reserve and the additional works required for conducting thereto the maximum quantity of water hereby authorized to be diverted.

(i.) The execution of the said works shall be commenced or resumed on or before the first day of June, 1924, and shall be prosecuted with due diligence and in a workmanlike manner and to the satisfaction of the Comptroller of Water Rights.

(j.) The said works shall be completed and the quantity of water to which the licensee is entitled beneficially used for the purpose set out in the licence on or before the first day of November, 1930

(k.) Before any change is made in the said works which would be a material deviation from the plans as approved or the works as accepted by the Comptroller, plans of such proposed change must be filed with the Comptroller and approved by him.

Original.

(l.) The nature and the extent of the incidental uses permitted under the licence are: For domestic purposes, the use of 500 gallons a day of water from any or all the said sources of supply during the whole of the year; and for storage purpose, such quantity of water (not exceeding ..... acre-feet) as, together with the natural flow-water used hereunder, will be necessary to secure to the licensee the quantity granted hereunder. The water which may be so stored shall be that of ..... and it may be stored (accumulated) in a reservoir at .....

..... between the first day of October in each year and the first day of June in the succeeding year, and may be used as provided for in subclauses (d), (e), and (f) of this clause, but such uses shall not enlarge the quantity of water allowed by subclause (e) hereof.

(m.) The Board may extend the time for the commencement, resumption, or completion of the execution of the works on being satisfied that it is in the public interest and that it will not injuriously affect the rights of any licensee.

(n.) The licence shall not in any way be deemed to be a final licence for the use of water, but shall have the effect only of a conditional licence issued under Part V. of the "Water Act, 1914," and shall be subject to all the provisions of the said Act, including the filing of proof of the completion of the said works and the putting of the water to such beneficial use within the time limited by the provisions of section 117 of the said Act.

.....

.....

.....

.....

.....

3. Pending the issue of the licence hereby authorized to be issued, the terms and conditions of this order shall govern the respective rights of the record-holders or claimants affected thereby.

PERMIT UNDER THE WATER ACT AUTHORIZING THE OCCUPATION OF CROWN LAND

Indian Affairs Branch of Ottawa, Ontario.

the holder(s) of ~~Conditional~~/Final Water Licence(s) 9011 authorizing
the diversion of water from North Oregon Jack Creek,

is/are hereby

authorized to occupy Crown land by constructing, maintaining, and operating thereon the works authorized under the said water licence and any licences which may be issued in substitution thereof.

(*a*) The Crown land which is authorized to be occupied under this permit is a portion of
Legal Subdivision 10 and 15 of Section 30, Township 19,
Range 25, West 6th Meridian,

amended
the location of which is shown approximately on the plan attached to the said water licence.

(*b*) The approximate dimensions of the Crown land authorized to be occupied under this permit are
3800 feet in length and 15 feet in width, having an area of
1.3 acres.

(*c*) Subject to the payment of royalty, stumpage, and other compensation, and the obtaining of a licence to cut timber as provided under Condition 5, the permittee may cut and remove from the said land any timber, the removal of which is necessary to permit construction and maintenance of the said works.

(*d*) The annual rental for this permit is $ 2.00 , which is subject to review and revision at any time at the discretion of the Crown.

(*e*) This permit is appurtenant to the land, mine, or undertaking to which the aforesaid water licence is appurtenant.

(*f*) The conditions relative to the rights granted under this permit are printed on the back of this form.

W.R.B. 12a— 6

CONDITIONS RELATIVE TO THE RIGHTS GRANTED UNDER THIS PERMIT

1. This permit is issued under the *Water Act*, and the rights hereby granted are subject at all times to the provisions of that Act and all Acts passed in amendment or substitution thereof and to all regulations from time to time made under any such Act.

2. There is reserved to the Crown the right to grant to other persons permits to occupy the land affected by this permit without compensation to the permittee or his successors in title.

3. In the event of any dispute arising at any time between the permittee and any owner of land adjacent to the land affected by this permit with respect to the area or boundaries of the land so affected, the licensee shall at his own expense, when so directed by the Deputy Minister of Lands, have the said land surveyed by a duly qualified surveyor, and shall likewise file with the Department of Lands, Forests, and Water Resources at Victoria, British Columbia, a plan showing the result of the survey.

4. This permit and the rights granted hereunder are subject always to compliance by the permittee with the terms of his water licence, and if the rights granted under the said licence should at any time be suspended or terminated, the rights granted under this permit are thereupon likewise suspended or terminated.

5. The amount of stumpage, royalty, and (or) compensation payable to the Crown by the permittee in respect of trees, including merchantable or young growth, cut, removed, damaged, or destroyed by the permittee, shall be the sum or sums fixed by the Forest Service of the Province of British Columbia. Prior to the cutting, destruction, or flooding of any timber, the permittee must apply for and obtain a licence to cut timber from the District Forester under the provisions of section 24 of the *Forest Act*.

Schedule of Indian Reserves in the Dominion—*Continued.*

British Columbia, Kamloops Agency—*Concluded.*

	No.	Name.	Where Situated.	Tribe or band.	Area, Acres.	Remarks.
	3	Switsemalph	Kamloops district, the central portion of Switsemalph reserve on Salmon arm of Shuswap lake, in township 20, range 10, west of 6th meridian.	Neskainlith, Halaulth	1,273·77	Two reserves on the Salmon arm were allotted by Joint Reserve Commission to the Neskainlith, Adams Lake and Little Shuswap Lake tribes in common. They have since been divided by the Indian agent among the several bands interested. The Neskainlith reserves are within the railway belt; they were allotted by Joint Reserve Commission, August 13, 1877, and surveyed 1881 and 1885. The area of R. of Way of the C. P. Ry. through this reserve has been deducted from the original area.
		North Thompson	Kamloops district, on the left bank of the North Thompson river about forty-five miles from Kamloops.	North Thompson and Canoe Lake	3,220·00	50 inches of water recorded from Newkykwaiston creek; 50 inches from Chukchuqualk creek..
	2	Nekalliston	Lillooet district, near the fort, and opposite Nekalliston creek, fifty miles above Kamloops.	"	5·00	15 inches of water recorded from Slipahan creek.
	3	Barriere River	Kamloops district, on the left bank of Barriere river, a quarter of a mile from its confluence with the North Thompson thirty-eight miles above Kamloops.	"	5·00	5 inches of water recorded from Barriere river. Allotted by Joint Reserve Commission, July 5, 1877. Surveyed, 1878.
	4	Louis Creek	Kamloops district, on the left bank of Louis creek, about a quarter of a mile from its confluence with the North Thompson, about thirty-five miles above Kamloops.	"	8·00	8 inches of water recorded from Louis creek.
(fishing)	1	Hay Meadow	Kamloops district, at the head of Venables valley, section 15, township 19, range 25, west of 6th meridian.	Oregon Jack Creek	30·00	In railway belt.
	2		Kamloops district, at the forks of Oregon Jack creek, in section 21, township 19, range 25, west of 6th meridian.	"	35·00	Allotted by Commissioner Sproat, August 3, 1878 In railway belt. Surveyed, 1885. Approved June 24, 1887.
	3	Oregon Jack Creek	Kamloops district, on the right bank of the Thompson river, at the mouth of the Oregon Jack creek.	"	120·00	100 inches of water recorded from Oregon Jack creek. The Oregon Jack Creek Indians have the privilege of salmon fishing on both banks of the Thompson river, from quarter mile above the mouth of Oregon Jack creek, down stream a distance of two miles. In railway belt. The Nepa reserve was relinquished in 1886. Reserves Nos. 6 and 7 were received in exchange. It is to be retained as an Indian reserve. Letter I. Dept. of the Interior 12 Oct., 1900.
(fishing)		Nepa	Kamloops district, on the left bank of the Thompson river at Nelson creek, in section 32, township 19, range 24, west of 6th meridian.	"		

5	.....	Kamloops district, on the right bank of the Thompson river, to the south of and adjoining reserve No. 3, in township 19, ranges 24 and 25, west of 6th meridian.	Oregon Jack Creek....	1,013·00	Allotted by Commissioner O'Reilly, August 12, 1881. Surveyed, 1885. Approved, June 24, 1887. In railway belt.
6	.....	Kamloops district, on Nelson creek, in townships 19 and 20, range 23, west of 6th meridian.	"	750·70	
7	.....	Kamloops district, south of reserve No. 6, in section 21, township 19, range 24, west of 6th meridian.	"	80·00	Allotted by Commissioner O'Reilly, May 19, 1886. Surveyed, 1886. Approved, June 24, 1887. In railway belt.
1	Quaaout.....	Kamloops district, north of Little Shuswap lake, and on the right bank of Adams creek at its mouth, in township 22, range 12, west of 6th meridian.	Little Shuswap Lake (Kwaaout)	1,265·00	One hundred inches of water recorded from Adams river, 25 inches from a lake at the southwest corner of the reserve and all the water from all other sources of water-supply on the reserve. In railway belt. ABANDONED P.C. 23/11/23
2	Chum Creek.....	Kamloops district, at the southeast corner of Little Shuswap lake, in township 22, range 12, west of 6th meridian.	" " ..	600·00	Fifty inches of water from Jim's or Trail creek, and all the water from all other sources of water-supply on the reserve. In railway belt.
3	Meadow.....	Kamloops district, in section 26, township 21, range 12, west of 6th meridian.	" " ..	00·00	Allotted by Joint Reserve Commission, August 14, 1877. Surveyed, 1878 and 1884. Approved, October 28, 1891.
